The advertisements and articles included in this newsletter are at the discretion of the editor, but do not necessarily express the views of the Village or the editor.

Village of Reeseville Housekeeping

The Village of Reeseville Board meetings are held on the 2nd Thursday of each month beginning at 6:30 p.m. Public comments are heard for the first 15 minutes of each meeting. All Village residents are welcome. If you wish to add something to the agenda please contact the Village Clerk. Meeting minutes will be printed in this newsletter, however they are not official until approval at the following monthly meeting.

The Village Clerk, Christine Abell, is available to help residents with any village business such as utility or tax payments and ordinance inquiries. She is available by appointment, **9-5 Monday-Friday**. Please reach out to her if you need assistance.

(608) 575-3097

ReesevilleClerk@gmail.com

Brush and Branch Pickup

1st and 3rd Monday of each month. Brush and leaves must be bagged. Branches need to be a maximum of 4 feet and tied in bundles. All branches not tied or longer than 4 feet will not be collected.

Burn Pile

The burn pile is for brush and branches ONLY, no other items may be left there.

Dog Licenses

Dog licenses were due March 31. Please show your pup some love and get them new bling for the collar by getting a license. Applications are available at www.reeseville.com.

Village Board Trustee Vacancy

The Village of Reeseville has two open Trustee positions on the Village Board. This position will be appointed by the Village President and Board of Trustees. Interested parties are urged to submit a letter of interest to the Village Clerk-Treasurer, Christine Abell, by emailing reesevilleclerk@gmail.com or by submitting a letter in the payment drop box located in front of Village Hall; 206 S. Main Street.

Dodgeland's Meals on Wheels

Over the past weeks, Dodgeland has been staying connected to their students and parents in a multitude of ways. While the doors may be closed, Dodgeland is still open! Dodgeland staff members have been diligently working to assemble and deliver meals throughout Dodge County for Dodgeland students. They would like to tell everyone more about this program that they proudly call Dodgeland's "Meals on Wheels."

This service is available to ANY student 18 years old or younger in the Dodgeland School District and comes at absolutely NO COST to Dodgeland families. This meal service is 100% FREE for any student in the Dodgeland School District. Additionally, all meals are DELIVERED by Dodgeland staff members directly to your home! You will hear a car horn honk outside of your home and sitting on your front steps will be a bag waiting for you!

These meals are assembled and delivered Monday through Friday and include a nutritious lunch for the day and a breakfast for the following morning. Included in the Friday delivery to your home are "family packs," which are boxes of food for both single and multiple-student families. These family packs ensure that Dodgeland students have a balanced meal through the weekend and are generously provided by The Gathering Source.

If you are not currently receiving meals from the "Meals on Wheels" Program, Dodgeland would be happy to add your name to the list! Please call or text the "Meals on Wheels" hotline at 920-392-9705 or call the Dodgeland School District at 920-386-4404 and choose Option 3.

(information and pictures from Dodgeland's FaceBook page)

State Bank of Reeseville

The State Bank of Reeseville has become the community bank of choice for thousands of area residents because they have the financial solutions desired, experienced professionals, and staff members to provide the personal attention they deserve.

COVID-19 is causing many concerns with consumers, but access to your money shouldn't be one of them. Here are the top five things you need to know about your money and banks under "Safer At Home."

1. **You have continued access to your funds, and bank services at STATE BANK.** Banks are considered an essential service which means you continue to have access to your funds through in-person services and self-service tools, such as mobile or online banking.
2. **Your money is safe, secure and insured at STATE BANK.** FDIC deposit insurance currently covers up to \$250,000 per person and ensures the security of consumers' funds. Congress is working on legislation providing authority for the FDIC to increase this coverage through Dec. 31, 2020. No consumer has lost a single penny in the history of this insurance fund.
3. **STATE BANK is prepared.** Banks are prepared for situations like a pandemic, with tested and proven business continuity plans and procedures. Although state and federal regulations require banks to be prepared, you'll find that community banks are prepared because they want to continue to serve, not because they are required.
4. **STATE BANK is looking out for you,**

your family, and your business. Wisconsin's banks are proactively contacting customers, offering assistance in the form of fee waivers, loan payment deferral programs, credit card payment relief, suspension of foreclosure and repossession programs, and more. Bankers are also helping their customers apply for grants offered at the state and federal level as well. Congress is also working on providing more assistance to businesses through banks in the form of additional changes to federal programs, such as the SBA program.

Your bankers at STATE BANK are listening and ready to act. Customers should contact their banker to talk about how COVID-19 is affecting them, and how the bank can help. Wisconsin's banking industry is strong and ready to help. (Information from www.statebankofreeseville.com, with permission from President Jerry Adams.)

HAPPY
MOTHER'S
DAY!

Mother's Day is May 10 this year.
Find a special way to celebrate and
honor the Mothers in your life.

Window Into the Past

These post cards depict the Memorial Day Parade of 1909. At that time the day was called Decoration Day, but it was still a day to remember all the brave men and women who sacrificed their lives for our freedom.

In our modern culture Memorial Day has become the unofficial beginning of summer. We often mark the occasion with parades, cookouts and parties. Social distancing will most likely not allow celebrations this year. We could use this opportunity to think about the origins and meaning of Memorial Day. Take a moment to be grateful. Visit the cemetery and look for the graves of veterans. Research your own family history or watch a documentary about WWII.

Memorial Day will look different this year, take a moment to notice all we have to be thankful for.

Post card images donated by
Betty Bussewitz.

A Message from the Village President

We are all experiencing life in a way no one else has seen in their lifetime. Everyone has seen lots of different events in their lives from wars, terrorist attacks, Natural Disasters, Mass shootings and the list could go on for a long way, but this is not about bringing up all the bad but remembering that we have always come through. One thing that is certain is it changes all of us. Not always in a good way, but hopefully it gives us the strength to carry on. We have to take from these events, make the best of them, difficult as it seems.

We can look at the present situation and learn from the examples it has given us. It shows us how we can come together with inspiration from the workers who carry on in these trying times. The Health Care Professionals, First Responders of all types, Police, Fire, Rescue Workers. **Thanks to all of them.**

Thanks to all service providers that are working everyday to see to it we have what we need to survive. Please help businesses by ordering take out.

One last thank you to the Poll workers who braved the situation and worked the election even though other states postponed their elections.

Thanks to Christine our Clerk/Treasurer for dealing with on again/off again and Dean for helping set up the safe distancing. Thanks to the voters who cast their vote either Absentee or at the polls.

Stay safe and follow the safety precautions that have been established for your safety!

Sincerely,

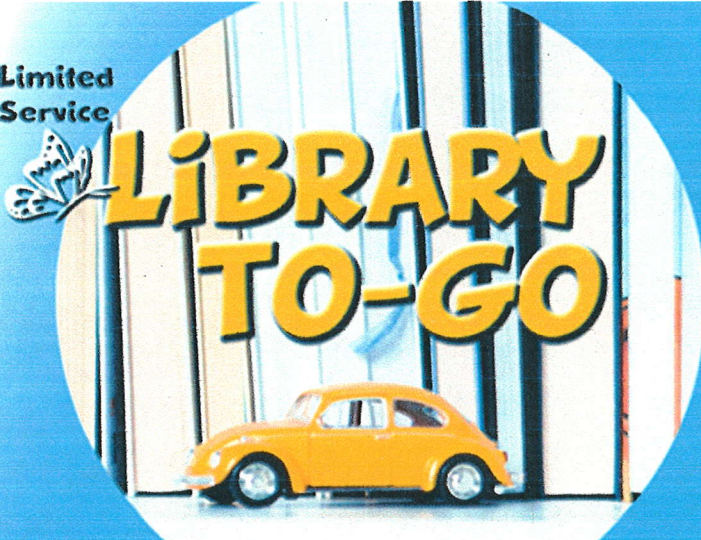

Brian S Miller
President
Village of Reeseville

Reeseville Public Library

Imagine Your Story

The library building will be closed until further notice. But starting **May 4** we will be offering curbside pickup of library materials. **Visit our website or call us for directions.** Library staff are still working hard to clean the library and have everything ready when we can open our doors again. Monarch has expanded the digital resources and the wifi is still running. We've already extended due dates, but will be forgiving fines if they pop up. You are welcome to contact us with questions. We miss you!

Limited Service

LIBRARY TO-GO

Starting May 4

1. Place items on hold at www.reeseville.lib.wi.us
2. We'll call you to make an appointment
3. Come pick up your items and enjoy!

www.reeseville.lib.wi.us 920-927-7390

My grandma once told me

In difficult times, you move forward in small steps.

Do what you have to do, but little by little.

Don't think about the future, or what may happen tomorrow.

Wash the dishes.

Remove the dust.

Write a letter.

Make a soup.

You see?

You are advancing step by step.

Take a step and stop.

Rest a little.

Praise yourself.

Take another step.

Then another.

You won't notice, but your steps will grow more and more.

And the time will come when you can think about the future without crying.

-Elena Mikhalkova

Happy Heart Hunt

During this time of social distancing, some caring individuals are trying to spread a little love and compassion. All over the country people are placing hearts in windows for kids to see while out walking. This promotes social distancing while doing an activity during a time when we must be so careful. Display hearts in your windows, on your doors, or anywhere outside of your home where passersby can easily see them. Hearts can be made from anything (paper, wrapping paper, cereal boxes), just be creative. Thank you for joining us! Happy heart hunting!

**Local Spotlight Search**

The Reeseville Review is looking for local businesses to feature in the Local Spotlight articles for the summer. If you have a business you would like to see please contact the editor. reesevillereview@gmail.com.

Cory's Lawn & Snow Service

Be the envy of the neighborhood. Keep it neat and green.

Commercial and Residential Services

Dodgeland Strong

Long-Term School Closure is a term I certainly never thought I'd hear, as a matter of fact, I didn't even know it was a thing, and yet here we are. In these crazy times, there are so many "new" normals that none of us asked for, many of us do not want, and again here we are. As parents we feel pressure to be optimistic and strong for our kids, and yet we feel more lonely and isolated than ever before. If you are like me, also feel guilty for feelings of loneliness and grief, knowing we are blessed and have time to spend with our children that we have never had before and will likely never get again.

This is hard, really hard, for all of us. As parents we are stressed and saddened to see our kids hurting. As teachers we are missing our students like crazy and are worried about them. We love our job and our students. This time of year is typically fun and filled with anticipation of field trips, great conversations with our students about the excitement of summer and next school year, and the end of the year picnic. Instead we find ourselves trying to make meaningful connections via virtual learning all while balancing teaching the curriculum, supporting students emotionally, making learning fun, holding students accountable, being flexible and understanding when work doesn't get done, and reaching out to families to see how we can help, all while trying to meet our own families needs. While at times we are all overwhelmed; kindness and empathy towards each other will help us come together and be stronger on the other side.

Reach out to your child's teacher if you need something. This is new for us, but we really do want to meet your students' needs. If you want more work, ask, if you need more time to complete work, ask, if you aren't sure how to prioritize which apps to work on, ask. We'll find a balance together. Take time to read everyday. Work on your math facts and spend time engaging your children in activities like cooking, cleaning, laundry and PLAY. Most importantly, teach your children to be kind, have empathy, learn from feedback, and take pride in their work.

When we get back to school, we will fill in the holes in the curriculum, however our job is much easier when our students come emotionally

ready to learn, are kind to each other, put forth effort, and take feedback to make improvements. Love your children, teach them to love others, and give yourself some grace. There is hope, we are #DodgelandStrong.

When Your Hope is Tested

"Ours is not the task of fixing the entire world all at once, but of stretching out to mend the part of the world that is within our reach. Any small, calm thing that one soul can do to help another soul, to assist some portion of this poor suffering world, will help immensely. It is not given to us to know which acts or by whom, will cause the critical mass to tip toward an enduring good." - Clarissa Pinkola Estes

This article was written by Teresa Chambers, wife, mother, and community advocate. She is a teacher at Dodgeland with deep roots in the area. Teresa lives on the family farm just outside of Reeseville with her husband, two kids and menagerie of animals.

2019 Consumer Confidence Report Data REESEVILLE WATERWORKS, PWS ID: 11401533

Water System Information

If you would like to know more about the information contained in this report, please contact Dean Ziegel at (920) 927-5243.

Opportunity for input on decisions affecting your water quality

Reeseville Village Hall 206 south main st. Second Thursday of each month at 6:30 p.m.

Health Information

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Source(s) of Water

| Source ID | Source | Depth (in feet) | Status |
|-----------|-------------|-----------------|--------|
| 1 | Groundwater | 222 | Active |
| 2 | Groundwater | 350 | Active |

To obtain a summary of the source water assessment please contact, Dean Ziegel at (920) 927-5243.

Educational Information

The sources of drinking water, both tap water and bottled water, include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally- occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which shall provide the same protection for public health.

Definitions

| Term | Definition |
|--------------------|--|
| AL | Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow. |
| Level 1 Assessment | A Level 1 assessment is a study of the water system to identify potential problems and determine, if possible, why total coliform bacteria have been found in our water system. |
| Level 2 Assessment | A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine, if possible, why an E. coli MCL violation has occurred or why total coliform bacteria have been found in our water system, or both, on multiple occasions. |
| MCL | Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology. |
| MCLG | Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety. |
| MFL | million fibers per liter |
| MRDL | |

| Term | Definition |
|-----------|--|
| | Maximum residual disinfectant level: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants. |
| MRDLG | Maximum residual disinfectant level goal: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants. |
| mrem/year | millirems per year (a measure of radiation absorbed by the body) |
| NTU | Nephelometric Turbidity Units |
| pCi/l | picocuries per liter (a measure of radioactivity) |
| ppm | parts per million, or milligrams per liter (mg/l) |
| ppb | parts per billion, or micrograms per liter (ug/l) |
| ppt | parts per trillion, or nanograms per liter |
| ppq | parts per quadrillion, or picograms per liter |
| TCR | Total Coliform Rule |
| TT | Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water. |

Detected Contaminants

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

Inorganic Contaminants

| Contaminant (units) | Site | MCL | MCLG | Level Found | Range | Sample Date (if prior to 2019) | Violation | Typical Source of Contaminant |
|---------------------|------|-----|------|-------------|---------------|--------------------------------|-----------|---|
| BARIUM (ppm) | | 2 | 2 | 0.124 | 0.120 - 0.124 | 5/2/2017 | No | Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits |
| FLUORIDE (ppm) | | 4 | 4 | 0.3 | 0.3 - 0.3 | 5/2/2017 | No | Erosion of natural deposits; Water additive which promotes strong teeth; Discharge from fertilizer and aluminum factories |
| SODIUM (ppm) | | n/a | n/a | 30.90 | 7.11 - 30.90 | 5/2/2017 | No | n/a |

| Contaminant (units) | Action Level | MCLG | 90th Percentile Level Found | # of Results | Sample Date (if prior to 2019) | Violation | Typical Source of Contaminant |
|---------------------|--------------|------|-----------------------------|--|--------------------------------|-----------|--|
| COPPER (ppm) | AL=1.3 | 1.3 | 0.4820 | 0 of 10 results were above the action level. | | No | Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives |
| LEAD (ppb) | AL=15 | 0 | 1.64 | 0 of 10 results were above the action level. | | No | Corrosion of household plumbing systems; Erosion of natural deposits |

Radioactive Contaminants

| Contaminant (units) | Site | MCL | MCLG | Level Found | Range | Sample Date (if prior to 2019) | Violation | Typical Source of Contaminant |
|--------------------------------------|------|-----|------|-------------|-----------|--------------------------------|-----------|--|
| GROSS BETA PARTICLE ACTIVITY (pCi/l) | | n/a | n/a | 2.6 | 1.5 - 2.6 | 10/4/2018 | No | Decay of natural and man-made deposits. MCL units are in millirem/year. Calculation for compliance with MCL is not possible unless level found is greater than 50 pCi/l. |
| GROSS ALPHA, EXCL. R & U (pCi/l) | | 15 | 0 | 5.7 | 4.5 - 5.7 | 4/3/2018 | No | Erosion of natural deposits |
| RADIUM, (226 + 228) (pCi/l) | | 5 | 0 | 1.0 | 1.0 | 4/3/2018 | No | Erosion of natural deposits |
| GROSS ALPHA, INCL. R & U (n/a) | | n/a | n/a | 5.7 | 4.5 - 5.7 | 4/3/2018 | No | Erosion of natural deposits |

Unregulated Contaminants

Unregulated contaminants are those for which EPA has not established drinking water standards. The purpose of unregulated contaminant monitoring is to assist EPA in determining the occurrence of unregulated contaminants in drinking water and whether future regulation is warranted. EPA required us to participate in this monitoring.

| Contaminant (units) | Level Found | Range | Sample Date (if prior to 2019) |
|---------------------|-------------|-------------|--------------------------------|
| NAPHTHALENE (ppb) | 0.17 | 0.00 - 0.17 | |

Additional Health Information

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Reeseville Waterworks is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

Other Compliance

Violation of the Terms of a Variance, Exemption, or Administrative or Judicial Order

No violations

Noncompliance with Recordkeeping and Compliance Data

All recordkeeping was complied with.

**PROCEEDINGS OF THE VILLAGE BOARD
OF THE VILLAGE OF REESEVILLE
April 9, 2020**

A duly convened meeting of the Village Board of the Village of Reeseville, Dodge County, Wisconsin, was held in open session on April 9, 2020 and called to order by Village President, Brian Miller, at 6:30 p.m. The pledge of allegiance was recited. The following Trustees were present, Chris Abell, Chris Behymer, Jim Bublitz, Kerry Horton and Dave Snow. Trustee Cheryl Goodrich, was absent.

Notice of this meeting was given to the public at least 24 hours prior to the meeting by posting the complete agenda at the Reeseville Village Hall, the Reeseville Post Office, and on the Village's official website.

Brian Miller thanked Christine Abell and the poll workers for all of their hard work before, during and after the election. Brian also thanked Dean Ziegel for setting up the election and keeping the safe distancing guidelines in place. Voters were also recognized for their cooperation and understanding of the procedural changes at the polling location.

There were no other public comments or input.

The consent agenda was approved on a motion by Jim Bublitz and seconded by Kerry Horton. Motion carried. The consent agenda included approval of the general fund treasury report, the utility treasurer's report and the meeting minutes from the previous Board meeting.

The Board reviewed the proposed Citizen Participation Plan for the Community Development Block Grant (CDBG) Program. Resolution 2020-1 "Adopting a Citizen Participation Plan for the Community Development Block Grant (CDBG) Program" was adopted on a motion by Chris Abell and seconded by Dave Snow. Motion carried.

An update from the engineer was given by Brian Miller in their absence. Specialty Cheese notified Kunkel Engineering that the expansion project was being put on hold for 90 days. Funding for Park & Jackson Street are directly affected by the expansion and job creation. The Board needs to make a decision on whether or not to move forward with submitting funding applications and the corresponding application fees. It was noted that the application fees are eligible TIF expenses and can be covered by TIF 3. The total application preparation fees come out to \$21,500. A question arose regarding the repayment of application fees to the TIF if the Specialty Cheese expansion and job creation was delayed further. It was noted that the TIF would not need to be reimbursed by the general fund if the funding was no longer required/needed. There was a motion by Jim Bublitz and seconded by Chris Behymer to approve the application preparation fees. Motion carried.

Police Chief Bahr was absent; however, a report was left for the Board to review. There was no further discussion.

Fire Chief Gay was absent, there was no fire report for the month.

There was nothing to report on behalf of the First Responders. A report from Lifestar was reviewed for the EMS calls for the month.

The 2019 Consumer Confidence Report was reviewed by the board and Dean Ziegel noted there were no deficiencies found in the water system. The full report will be available in the May newsletter and on the Village's website.

A letter was received by Rebecca and Grant Rushing regarding their interest in purchasing the lots at the end of Ruby and Opal Street. Rushing's would split the lots with another homeowner and they both are interested in building a garage or pole barn on the vacant lots. Dave Snow called the building inspector for his thoughts and he noted that sheds can't be constructed on a lot without a residential building, unless the lots were resurveyed and combined. Further discussion is needed and the Streets and Alleys Committee will meet at a later date. Discussion was tabled.

Dean Ziegel noted that the streets were cleaned and they may not be patched until possibly May because the blacktop companies are not currently open.

The Board discussed transferring the sewer utility's share of the DPW truck purchase from savings to checking. Motion by Jim Bublitz and seconded by Dave Snow to transfer \$18,668.00 from sewer savings to sewer checking. Motion carried.

Ordinance A-125 "An Ordinance to Repeal Ordinance A-32 and Revert Back to the Original Title 15 Building Code of the Code of Ordinances" was adopted on a motion by Dave Snow and seconded by Jim Bublitz. Motion carried.

Dave Snow gave a report regarding Public Health & Welfare. A letter was received from Advanced Disposal at the end of March regarding a change in pickup procedure due to the pandemic. Large item pickup has been suspended until further notice. Advanced Disposal was supposed to leave notices for Village residents, but notices have not yet been given as of today. A notice was given by the Village on the Village's website, Facebook and in the Reeseville newsletter. The Village's code book is also moving forward with the upgrade.

The board discussed future agenda items.

The following bills were reviewed by the Board:

| | | | |
|------------------------------------|------------|----------------------------------|------------|
| BP | \$152.37 | WI. Dept of Revenue | \$50.00 |
| WI Dept. of Revenue | \$300.00 | Ziegel, Dean | \$2,286.94 |
| Abell, Christine | \$2,070.24 | Abell, Christine | \$966.48 |
| Abell, Christopher | \$115.44 | Berkevich, Thomas | \$230.87 |
| Zechzer, Benjamin | \$230.87 | Abell, Christopher | \$115.44 |
| Bublitz, James | \$115.44 | Miescher, Michael | \$115.44 |
| Gay, Nicholas | \$461.75 | Denruiter, Phillip | \$230.87 |
| Ziegel, Dean | \$1,467.33 | Beal, Denise | \$467.40 |
| Kromm, Darrell | \$45.71 | Kohn, Gary | \$96.91 |
| Kromm, Kay | \$138.53 | Harmsen, Derek | \$530.26 |
| Bahr, Scott | \$347.87 | Gebhardt, Terrence | \$407.21 |
| Galvan, Elaine | \$527.99 | Didion, Ellen | \$274.90 |
| Westphal, Janet | \$261.81 | Kromm, Kay | \$1,435.05 |
| Rehberg, Kittara | \$172.69 | Advanced Disposal | \$3,797.40 |
| Cardmember Services | \$1,104.68 | City of Watertown | \$1,169.00 |
| Dodge County Highway Dept. | \$933.65 | Dodgeland School District | \$3,964.46 |
| Environmental Specialists | \$100.00 | General Code | \$2,372.00 |
| GFC Inc. | \$61.40 | GFC Leasing | \$346.65 |
